

FOULDEN RECREATION GROUND

Update on Play Equipment October 2023

Foul登 parish council recently received an alert from the Royal Society for the Prevention of Accidents (RoSPA) inspector, after the routine annual inspection of the playing field equipment.

This alert notified the council that the swings had failed the inspection, and needed to be taken out of use, which they have been. At some point, they must be removed altogether.

As soon as the parish council receives the full RoSPA Annual Inspection report, we will be in a position to review all the play equipment, and decide upon future actions.
